CARRANZA NOTE

STILL MISSING.

Washington is Mystified by its Non-arrival.

Embassy Officials Say They Expect it Today Sure.

Conditions in Mexico are Reported Satisfactory.

WASHINGTON, May 29.—State Department officials were somewhat puzzled today over the failure of the new note from Gen. Carranza to reach the department or the Mexican Embassy. The department's files indicated that it was to be sent yesterday.

Manuel Mendez, the Foreign Office attaché from Mexico City, who is supposed to be acting as special messenger, arrived here today, but he had no knowledge of the note whatever, and merely handed it to the State Department.

Mendez conferred, said that none of the messages from the Foreign Office contained any mention of a note.

Word that the note was coming, and that it probably would reach the department or the Mexican Embassy, was withdrawn from Mexico, reached the department last week. Later dispatches from Mexico City said the Carranza government was taking precautions to guard against premature publication of the note and that nothing concerning its contents would be revealed until it had been presented in Washington.

Mr. Arredondo made no appointment to be at the State Department today, as tomorrow is a holiday, it is said. The note will not be presented until Wednesday, should it arrive tonight or tomorrow.

THE CITY AND ENVIRONS.

EVENTS BRIEFLY TOLD

Grand Rapids Picnic.

The annual picnic of the Grand Rapids (Mich.) Association will be held at Sycamore Grove today. The question of changing the yearly outing date from Memorial Day to be decided. Hot coffee will be furnished.

California Evening.

"California evening" will be observed at the meeting of the Wisconsin Society of Los Angeles Monday night in the Wisconsin Hall. Wisconsin songs will be sung under the leadership of Huldah E. Leeb. There will also be ten-minute talks and a musical entertainment.

To Organize Alumni.

A meeting for the purpose of forming an association among the alumni of the Custer intermediate school will be held at the Echo Park clubhouse at 8 o'clock next Thursday evening. There will be talks by B. W. Reed, the first principal of the school; Miss Flynn, the present principal; by teachers and the various class representatives.

No Ad Club Meeting.

The weekly luncheon of the Ad Club will be omitted today because of the holiday's significance. But there will be a luncheon for the club at the Clark June 6, under the auspices of the publication of the American Institute of Banking. E. G. McWilliam will be chairman, and the occasion will be designated "Thrifty Day."

Colleagues Celebrate.

Yesterday was "El Rodeo" day at the University of Southern California, in honor of the publication of the college year book of the same name. Walter Watson was editor and Clifford Hughes manager of the publication, which was the largest in the history of the institution. The juniors celebrated the event with a programme of exercises, which culminated in a banquet at the college cafeteria.

Hebrew Culture Society.

The first meeting of the Hebrew Culture Society of Los Angeles will be held Thursday evening in Etna Hall, No. 711 West Seventeenth street, at which time will occur the election of officers. The society's purpose is to disseminate generally knowledge of Jewish thought and ideals, history, traditions, biblical lore and customs.

Mrs. Pankhurst to Lecture.

Mrs. Emmeline Pankhurst, the well-known Englishwoman, will be heard in one lecture—the funds of which are to be devoted to the suffering and distressed of the world—tomorrow evening at Trinity Auditorium. Although the prime leader in the suffrage difficulties, Mrs. Pankhurst has been the recipient of the war, devoted her entire time and energies to the relief of the suffering and distressed of the world, and the return camps in England.

Case is Postponed.

The rehearing of the application of the Huemene, Malibu and Port Los Angeles Railway to sell, and of the Huemene, Malibu and Southern Railway to purchase property and issue stock, was postponed yesterday by Examiner Westover of the State Railroad Commission until 9 o'clock Thursday morning. The case was reopened by the commission on receiving a petition for a rehearing from Samuel K. Rindge, a stockholder in the first-named company.

SLAYER FREED.

Court Finds Mexican Shot Pictorial Bully in Self-Defense. Antonio Morales, who shot and killed Margarito Carreras at a Mexican picnic about two weeks ago, was released yesterday by Justice Hanby, on the ground that the shooting was clearly in self-defense. It precipitated a riot, during which Morales escaped. A former sweetheart informed the police of his whereabouts, and he was arrested and charged with murder.

During the preliminary hearing yesterday it developed that Carreras had been drinking heavily and had threatened to kill several persons at the picnic.

GOVERNMENT CUTS PRICE.—An announcement that the government has reduced the price on the official postal guides was made yesterday by Postoffice Inspector Webster. The copies in cloth that heretofore cost \$3.50 will now be sold for 40 cents, while the price on the paper-bound copies is reduced from \$1 to 30 cents. There are also abridged forms in cloth for 30 cents and in paper binding for 15 cents.

—and the Worst is Yet to Come

For the Weary Wife and Mother after the winter struggle with poor food and poor service there is no boon like **Shredded Wheat Biscuit.** It is ready-cooked and ready-to-serve. In the Early Stages of Tuberculosis your chances for defeating this dreaded affection depend largely on your ability to restore normal body functions. To do this, one requirement is proper attention to diet and pure food. Also rest and fresh air, day and night. Where the system is run down and likelihood of serious consequences thus increased, Eckman's Alternative may prove beneficial, as it has in many cases. This is a time treatment—but unlike any other. For here the time content is so combined with other ingredients as to be easily assimilated by the average person. A trial can do no harm, since Eckman's Alternative contains no poisonous or habit-forming drugs. Sold by The Ovi Drug Co., leading druggists. Eckman Laboratory, Philadelphia.

"CITY OF SAN DIMAS"

Rival Community Factions Advocate and Oppose Incorporation. San Dimas wants to be more than a mere name. It wants to be a community, and for that reason a number of residents of the vicinity yesterday filed a petition with the Board of Supervisors for the privilege of incorporating as a city of the sixth class. A number of persons were present to protest against such a plan, declaring that county taxes are high enough, without adding the burden of city taxes to their expenditures. The board fixed June 7 as the date on which to settle the controversy.

BAKERY STRIKE IS SHORTLIVED.

Petty Grievances Result in Walkout of Three.

Laborites Picket Plant and Institute Boycott.

Owner Calls Hand of Unions and Police to Rest.

Because a member of the so-called Bakers' Union failed to keep his dues, another was dissatisfied with his foreman and a third demanded an advance in wages that was not warranted, a strike on the Gordon Bakery, No. 451 East Santa Barbara avenue, was inaugurated Saturday and members of the union declared their intent of ruining the business of G. B. Gordon, the owner. Three of the unionists who demanded that the delinquent member be discharged (two of them being the dissatisfied man and the baker who was not getting the full cent) quit when this was not done.

The strike, unique even in the annals of the Bakers' Union, where many wild strikes have originated, failed miserably yesterday, the only thing accomplished being the terrorizing of respectable residents of the neighborhood.

The three men left their work Saturday afternoon and declared they would not return until the delinquent member was either discharged or forced to pay his dues in the union. Mr. Gordon refused to discharge the man, and after referring the discipline of the union members to the union, sent for bakers to take the place of the men who quit.

Eight bakers were sent to the bakery by an employment agency, but not one reached the place. The bakers turned back by threats of picketers stationed near the Gordon shop. In the evening two large automobiles loaded of "chairwarmers" from the Labor Temple made their appearance and by midnight Saturday, fully forty men were patrolling the street near the shop.

TRUCKER OWNERS. "Fourbit" Kelly, "Big Mitt" Hogan and "Hobo" Smith appeared as the leaders of the gang. They repeatedly walked past the office of the bakery and declared they would "put Gordon out of business." After hanging around the shop all day and Sunday night, vainly endeavoring to get the other union members to leave off work and join them, "Hobo" Smith and "Big Mitt" Hogan, early Monday morning appeared at the Gordon shop in limousines and harangued the bakery drivers, whose duty it was to deliver the bread to the various groceries in the city.

Failing to get even one of the drivers to join them, the two leaders dispatched the Labor Temple loafers to trail the various delivery wagons, telling them to intimidate the grocers where bread was delivered. If they failed they were instructed to post signs near the grocery stores, requesting customers not to use Gordon bread.

IT BLOWS UP. As noon yesterday, having failed to get a single grocer to stop handling the Gordon bread, the Labor Temple crowd, not one of them a baker, returned to the vicinity of the Gordon shop and again posted pickets. Neighbors sent in a call to police headquarters for help, fearing some untoward act on the part of the lawless pickets. However, before the police could reach the place, the Gordon shop was toward the Gordon shop and in a second of time the forty chairwarmers were firing. Not one remained to explain their grievance, if they had one. At 5 o'clock the streets were deserted, workmen had again replaced the strikers and the usual calm of the neighborhood prevailed.

COMMUNIST. NOT LUNCH, BUT WAR.

Chinese Restaurant Owner Serves No Meals to Colored Patron, Whom Asked Three Times; Sued; Fight on Attachment; Suit Outwitted.

Wong S. Chong conducts a restaurant on Central avenue near Tenth street. For some reason best known to himself, he had a sign painted and hung over the restaurant, reading: "Colored Patronage Not Solicited."

Last Sunday a week ago J. B. Means, colored, walked into the restaurant and ordered, "Wong lunch."

"Wong replied, 'no lunch.' Means walked out. He came back Monday, looked at the sign, and said to Wong, 'Lunch, please.' Wong replied, 'No lunch.' Means came Tuesday and asked in the one syllable word to be served. Wong refused, likewise in one syllable.

Means went to a colored attorney, and the lawyer brought an action for damages for violation of the law guaranteeing the rights of all citizens. Means says he is a citizen. The damages asked are \$75 for Sunday and Monday and \$50 for Tuesday, or a total of \$125, subsequent to the attachment.

Justice Brown yesterday refused to issue an attachment, although Attorney Darden argued that Wong has an implied contract to serve. Attorney Darden went before Presiding Judge Hauser, who granted an alternative writ of mandate, compelling Justice Brown to issue the attachment. The writ was made returnable before Judge Hewitt Monday. There the battle will be fought, with County Counsel Hill representing Justice Brown.

WOMAN HURT; MAN SOUGHT.

Investigation of Their Past Will Follow Alleged Beating. Miss Mabel Jenkins, 37 years old, was taken to the Receiving Hospital yesterday to be treated for injuries received in a quarrel which she had in her room, No. 528 South Figueroa street, with P. Kemmer for whom the police are searching. It was first feared Miss Jenkins' skull had been fractured, but subsequent investigation showed she was suffering from concussion of the brain, and no dangerous condition.

She occupied the apartment as Kemmer's wife. She alleges Kemmer attacked her when she consumed him for drinking. Their past is a matter for city and federal investigation.

MANY INJURED IN STREET-CAR WRECK

BIG TRUCK-LOAD OF CEMENT DEMOLISHES COACH.

Trolley Carrier and Motor Vehicle Collide and More than Dozen Persons Suffer—Six of More Seriously Hurt Rushed to Hospital for Treatment.

Five tons of cement, aboard a heavy motor truck, stopped and wrecked a street car when the two vehicles collided yesterday at Seventh and Main streets. More than a dozen passengers on the street car were injured in the crash. Six were taken to the Receiving Hospital for treatment.

The truck was crossing the tracks in front of the Stephenson-avenue car when the accident occurred. The truck was driven by W. A. Dalley, No. 278 North Main street, and with him was Fred Quinn, No. 155 West Avenue 28. Conductor J. J. Mahan and Motorman A. Lawler were the crew of the trolley coach. The auto driver and the motorman charged each other with negligence and careless driving.

The more seriously injured of the passengers are: Mrs. A. O. Foster, 37 years old, No. 1511 West Twenty-fifth street; J. F. Hayden, 78 years old, No. 312 West 11th street; G. M. Katsenberger, 45 years old, No. 8126 East Seventh street; Mrs. J. Smith, No. 1575 East 19th street; Miss Paulina R. Resendes, No. 1066 South Soto street; and Mrs. J. J. Smith, No. 1845 East Seventh street. Cuts and bruises and shock from the crash were the extent of the injuries.

Anti-claim. BOLD ROAD AGENTS OR BROKEN GLASS?

THRILLING TALE OF MIDNIGHT ADVENTURE TOLD.

Motorists Encounter with Three Highwaymen, Shots, Blowout and Fight on a Highway—One Man Stranded Party Merely Asked Help.

Midnight auto bandits on the Long Beach boulevard; Edward Nolan, manager of the Pacific Knitting Mills, traveling homeward; shouts, shots, the punctured; dash on rim to Long Beach; long-distance report to the Sheriff's office.

That is the major in which a brief outline for a "movie thriller" might be detailed. The thriller, however, turns out to be comedy. Here is the sequel:

Deputy Sheriff Modie, Sweeney and Anderson dashed to the supposed scene of the hold-up. Arriving in the vicinity where the "hold up" was attempted they found the three men described by Mr. Nolan.

The trio proved to be road employees of the county. They were proceeding in a county automobile dragging some road machinery toward Los Angeles, when the motor car broke down. Stranded on the highway late at night, the men decided to halt the first passing car that might carry them home or to a trolley line.

One of the first machines that passed, apparently, was that of Mr. Nolan. "We yelled at him," they said, "but instead of stopping, he stepped on the gasoline foot and sped by at a terrific rate. Just a few rods along he struck some broken glass, causing one of the tires to blow out. But the car kept right on going."

The deputy sheriff informed Mr. Nolan of all this, but he still has his doubts.

CONDITION IMPROVES. A slight improvement was noticed last night in the condition of Sidney Alcott Butler, former County Supervisor and present first vice-president of the Chamber of Commerce, who is critically ill with pneumonia at his residence, No. 243 South Rampart boulevard. All danger, however, has not passed, and he was last night at his home, but the change for the better has encouraged his physician.

FLEET'S CHIEF CITY'S GUEST.

Admiral Winslow Entertained by Commerce Chamber.

Says Nation Should Prepare for Any Emergency.

Will Inspect Submarines at the Shipyards Today.

Paying a long-promised visit to Los Angeles and at the same time taking the opportunity offered to inspect the submarines now under construction at Los Angeles Harbor, Admiral Cameron McR. Winslow, commander-in-chief of the Pacific fleet, was entertained royally yesterday by the Los Angeles Chamber of Commerce. An automobile trip to the beach, Universal City and Pasadena, punctuated with luncheon at the Beverly Hills Hotel, closed last night with supper at the California Club. Admiral Winslow, accompanied by his staff and Capt. Robertson, of the U.S.S. San Diego, the flagship, left for Los Angeles Harbor following supper.

Although the somewhat rigid censorship established by the Wilson administration on naval officers who were of what they termed the "military class" was somewhat relaxed, Admiral Winslow from having much that he really thought, the man who would have to stop any invasion of California, condescended to speak a few words on preparedness yesterday.

"I believe this nation should be so prepared that it could meet any emergency in case of war," he said. "I am glad to be in Los Angeles. Because of the Mexican trouble, we have to keep pretty close to the marine base at San Diego."

"While I am here I expect to look over the submarines now under construction at your harbor. We will go back to San Diego tomorrow evening. The flagship San Diego, conveyed by the U.S.S. Milwaukee, arrived at Los Angeles Harbor yesterday morning. Headed by Fred John S. Mitchell, a committee of the Los Angeles Chamber of Commerce and members of the San Pedro Chamber of Commerce met the admiral and his staff at the pierhead. The committee was composed of Mr. Mitchell, Capt. H. Z. Osborne, Capt. J. D. Frederick, Maj. A. J. Copp, Brig.-Gen. Robert Wankowski and T. P. Fleming; that of the San Pedro Chamber of Commerce included E. B. Moore and Secretary Storor.

While the admiral was in the city, a special program was arranged for the visitors. The program was made with Admiral Winslow and Capt. Robertson aiding an imitation stock exchange. The program was made with Admiral Winslow and Capt. Robertson aiding an imitation stock exchange.

The admiral's visit to the city was a most successful one. He was well received by the city officials and the people. He will be in the city for a few days more.

SISTER DISAPPEARS.

San Diego Woman Here on Search for Sister. Mrs. Lee Moore, wife of Dr. Moore of San Diego, asked the local police last night to search for her sister, Miss Dora Hoskinson, 19 years old, who, she said, mysteriously disappeared on a city Thursday night, after sending the following telegram to San Diego:

"Dear sister: I am in need of your assistance. Mrs. Moore said her sister had been visiting in this city at the residence of Miss A. Young, No. 1854 Ingraham street. CAUGHT IN BELLA. (LOCAL CORRESPONDENCE.) MCKITTERICK, May 29.—Charles Scott, young son of J. D. Scott of the Associated Oil Company, met with a painful accident while at play with three companions in an abandoned oil belt house. The accident was accidentally started, and Scott was caught in the belt and dragged some distance. Here is the sequel:

The engine was finally stopped and Scott was released after he sustained cuts on an arm and a leg and had his clothing badly torn.

REGAINS CONSCIOUSNESS. (LOCAL CORRESPONDENCE.) HUNTINGTON PARK, May 29.—O. A. Sline, who was injured last night when his car overturned near here, was sent to his home at No. 1224 West Thirtieth street this morning after regaining consciousness at 3 a.m. His injuries consist of three fractured ribs and scalp wounds. He was injured on the Long Beach boulevard last night when he was caught in the belt of a gasoline engine and sped by at a terrific rate. Just a few rods along he struck some broken glass, causing one of the tires to blow out. But the car kept right on going.

PROGRAMME ANNOUNCED FOR DRUGGISTS' MEETING.

ANYONE who believes that the life of the druggist is all work and no play will be fooled June 14, 15 and 16, for these are the dates for the convention of the California Pharmaceutical Association in Los Angeles. Announcement of the tentative programme yesterday by Edward G. Bina, chairman of the local Executive Committee, indicates that there will be much besides discussion of the proper mixing of pills.

The most interesting part of the programme is being kept secret. It has to do with the high links of the Ancient and Diabolical Order of Bruinifurrows, which will be under the direction of the traveling members of the organization. It. W. Monkman, chairman. While none will venture just what is going to happen, it is known that two hours will play a prominent part.

Nearly 500 pharmacists from all parts of the State are expected. The San Francisco delegation will charter a ship for the trip and promise to establish for the annual meeting of the State organization.

The ladies' auxiliary and the traveling members of the order will be in the city over night, as he stated he was ready early this morning. The bulk of the order will remain at the hotel. The order will be in the city over night, as he stated he was ready early this morning.

Red Tubes Were Made Before Red Tires

Our "Peerless" and "Standard" Red Inner Tubes are known to every experienced motorist. It was the great success of these tubes that led to the introduction of our now famous Empire Red Tires.

When you buy a tube, specify the Empire "Peerless" or "Standard" Red Tube. The "Peerless" is extra heavy—30% heavier than the ordinary tube and will stretch 7/8 times its length without a strain or break and jump back in perfect shape.

Empire Tubes

RED WEAR LONGEST

"Peerless" and "Standard"

Empire Red Tubes are thick and tough and stretchy. They never get brittle or spongy. The heat of friction never bothers them. They can be vulcanized and patched over and over again. The Empire "Standard" is of the same quality of rubber, but only about the weight of the average tube of unknown or uncertain quality.

See the Empire man today and get equipped with Empire Red Tubes and Tires—the unbeatable combination.

TREND OF THE FINANCIAL NEWS.

CHIEF EVENTS OF YESTERDAY.
(At Home.) Ante-holiday apathy prevailed in financial markets, despite the large increase in earnings shown by railroads and many large industrial concerns. The disposition of investors was to put off further commitments until after the political conventions. Several of the war issues showed gains, while others receded.
(Abroad.) A general strengthening of Anglo-French securities is attributed to recent peace reports.

THE AVERAGE SENATOR.

Tom Taggart says that all of the members of the Senate are not statesmen. They would no doubt stand higher in his opinion if they did not complain of a draught on the bottoms of their feet when they held poor poker hands.

MODERN MIRACLES.

Is there a miracle mentioned anywhere in sacred or profane history comparable with that which enabled Bell, the inventor, to stand at a telephone instrument in New York and make a speech which was heard simultaneously by over 5000 people in eight cities ranging from the Atlantic to the Pacific and from Boston to Atlanta? Incidentally the auditors heard "Dixie" played in Atlanta and "Yankee Doodle" played in Boston. The improvements in the long-distance telephone will enable Chaney M. Depew in New York City to make an after-dinner speech to the assembled members of the Chamber of Commerce in Seattle. If Havens' invention had been given 1000 years ago Paul might have avoided shipwreck by the receipt of a wireless message warning him of a coming tempest.

EXHAUSTION IN SIGHT.

With the exception of the protracted battle at Verdun the contest in Europe has taken on a diplomatic and political rather than a military aspect. There is Russian activity in Asia Minor, and Russia has been active in Africa removing German obstructions to the consolidation of British possessions there.

The indications are that the central powers are ready for peace. Germany has left a small part of Alsace to the French. Austria has lost a part of the Trentino to Italy. Germany would be content to make peace on condition of neither paying nor receiving indemnity and of being allowed to retain Belgium, Northern France, Serbia, Poland and Russian Baltic provinces. She is reconciled to the loss of nearly all her colonial possessions.

Exhaustion is in sight. France has called to the colors about everyone available as a soldier without robbing the cradle and the grave, and England is baffled by the non-patriotism of the members of labor unions whose idea of their duty seems to be not to "strike for their altars and their fires," nor the more or less "green graves of their streets," but to strike for higher wages.

None of the allied armies were or are as well trained for efficient work in every direction as the Germans. It was their preparedness as well as their stubborn determination to win that has enabled Germany and Austria to so long and so successfully resist the larger forces and greater resources of the allies, but the end must come sooner or later, and sooner rather than later.

ANGEL OF THE BATTLEFIELD.

Memorial Day recalls to mind not only heroic duty performed by the men who took up arms to save the Union, but also the noble work performed by the women. As one Los Angeles preacher said on Memorial Sunday, while cheering the men of those strenuous days we must not forget the heroism of the women.

Chief among the women of America who performed unparalleled services on battlefields and in the hospitals during the Civil War was Clara Barton, who won the title, "Angel of the Battlefield." Given up her position in the Patent Office at Washington she, at the outbreak of the war, devoted her time and energies to caring for the sick and wounded and led in organizing the Sanitary Commission. She offered an example of devotion and efficiency equalled only in the annals of war by that other angel, Florence Nightingale, "The Lady with the Lamp."

Nor did she confine her energies on behalf of the country's soldiers to the period of war. After peace was achieved she organized at Washington the Bureau of Records of Missing Men and traced out the fate of 39,000. This in itself was a remarkable achievement and one which brought comfort to thousands of families which, though grieved at the death of their relatives, yet found succor from that gnawing anxiety which accompanies uncertainty.

Afterward she repeated on a smaller scale in Europe the splendid work she had accomplished in America. During the Franco-Prussian war she helped to organize the German Hospital Service and later, during the terrible days of the Commune in Paris, she came to the aid of the sick and the needy and worked so valiantly that the Frenchmen said of her, "Mon Dieu, it is an angel."

Her crowning achievement was the founding of the American Red Cross Society, and now it is proposed to commemorate that work by the erection of a Red Cross building in Washington in her honor. That is a movement that must commend itself to every patriotic American.

PEACE WITH A CLER.

After two years of unprecedented bloodshed and heartrending conflict in Europe, during which the peace of the whole world has been jeopardized, President Wilson, as head of the greatest neutral nation, feels that it is high time the belligerents come to terms of peace. His speech before the League to Enforce Peace on Saturday was dignified, well-considered, reasonable and offered what would appear to be a workable solution of the problem of ways and means to bring about peace.

There is no question that the whole world is sick of the war, while the thirteen warring nations are groaning under incredible hardships and misery. There is little doubt that a great and conclusive victory on either side is practically impossible, that even were the war prolonged for another year, neither side could claim to have absolutely defeated the other. The most that could be looked for would be greater hardships for the combatant populations, more Zeppelin raids over England, more merchant shipping sunk, more starvation for the central allies, none of which things can bring about military or naval advantage, but only add to the horrors.

Now, before the opposing forces settle down to all the tortures of another winter in the trenches, now, after the appalling and unavailing slaughter before Verdun, now, when both sides have sufficiently proved their bravery, their endurance, their might and their readiness to attack or defend in the face of unspeakable terrors—now is the time for this great nation to step in, to use its unquestioned influence and power to call a halt to these ill hostilities. President Wilson has gauged his time well. The obvious sincerity and justice of his words found an echo in the heart of the nation which he has kept out of this war that they might come with clean and impartial hands at this juncture to demand of the nations that they make peace.

Demand is the right word. This country has a right to demand, to enforce peace. Not by force of arms, not by more bloodshed, but with the strong, sharp weapon of economic pressure. Germany has indicated her readiness to discuss peace, and her allies will follow her lead. Only from the Entente allies do we hear any opposition to an early peace. And it is easy to read between the lines that the opposition is half-hearted, based upon a crude suspicion that this country is playing into Germany's hands. They want peace; they want it from the bottom of their souls; and if they decline at this juncture to consider President Wilson's proposals it will be from a false conviction that by prolonging hostilities they can humiliate their foe.

It is safe to say that if the allies now refuse to discuss terms of peace, after Germany's frankly-declared willingness, they will win the opprobrium of the whole world.

But they cannot be allowed to refuse. If the United States comes out firmly and unequivocally for an insistence upon peace, backed as it will be by all the other neutral nations, the allies cannot, from a mere assumption of false pride, continue the war. Weak as this nation is in a military sense, it is strong in "the sheen of war." An embargo on the export of munitions and produce and money from this country, which would have a devastating effect on the time settlement has arrived, can with justice be instituted, would soon bring the allies to their senses. So long as the central allies have declared their willingness for peace this country can and should enforce it.

And it must be enforced on a basis of justice and equality. The three cardinal points which the President laid down in his address are just. First that the belligerents come to an agreement with regard to their own interests. Second, that a universal association of the nations to maintain the inviolate security of the freedom of the seas for the common and unhindered use of all the nations of the world be instituted. And, third, that such an association be responsible for preventing future wars which violate treaty covenants, and insisting upon the points at issue being submitted to the opinion of the whole world.

As the President lays down as the third article of his creed, "The world has a right to be free from every disturbance of the peace that has its origin in aggression and disregard of the rights of peoples and nations."

The world has this right and the United States is in a position to insist upon it. And its chief weapon at this juncture is economic pressure. The President's speech is the one topic of interest in the newspapers of the world today. The world wants peace, and this nation is the logical one to enforce it. By a virtual boycott of the nations refusing to agree to a peace conference on the lines the President has laid down they would soon be brought to see the error of their ways. With their credit closed in this country they could not go on. The United States has been accused of willingness to encourage war so long as it brought her profits; but it is safe to say that this country would be united, even to its own financial disadvantage, in forcing any countries essaying to deliberately and unnecessarily prolong the war to come to terms.

Hitherto, when neither side was willing to discuss peace, conditions were totally different. Then we were justified in exporting to those countries which could fetch the goods, according to international law. But if one side is ready for peace the United States would stand as one man to aid them. No consideration of war profits would be found to move us. If the President is prepared to use this club to bring about a speedy peace he will have the country behind him, and there will be no sympathy among the neutral nations for belligerents who, from hateful motives, decline to lay down their arms.

STRAW SCHEME.

A result of the straw vote taken by our ex-Progressive, ex-United-Republican morning contemporary demonstrated one thing, and that is that there are 1786 people in California who take the Tribune and heed its counsel. This fact will be an agreeable surprise to the advertisers in the Tribune.

Our contemporary aforesaid, with an abundance of that modesty which is said to adorn a woman and be utterly ruinous to a man, announced editorially several days before its coupon-clipping campaign closed that the result of the campaign would "prove of instructive interest to California's delegates;" that it would "reveal the wishes of the people of this section," and that it

In War and Peace.

would "prove influential" with the Chicago convention "in determining the result."

Would the Hawaiian growers of pineapples and bananas take instructions in the valley of the Yukon? Would the makers of snowshoes in Alaska heed the advice of Hawaiians as to the proper method of constructing them? Will Taft and Root and Choate and the 100 Boston lawyers who have branded Brandeis as "unfit" for the Supreme Court bench recall that opinion because our esteemed contemporary insists that Brandeis is a persecuted saint and a lawyer so able that he had a right when employed by a plaintiff to also obtain a fee from the defendant?

The issue was fairly made in California between the twenty-six Progressives—masquerading as Republicans—who were selected by Johnson and Eli and a few members of the plunderbund to vote for Roosevelt, and the twenty-six genuine Republicans who were selected by 500 representative delegates to vote for almost anybody except Roosevelt. As a result of that vote the anti-Roosevelt ticket was chosen by over 50,000 majority.

And now our esteemed coten wants the California delegation to the National Republican Convention at Chicago to be "instructively" by 1557 subscribers to the Tribune—not one of whom probably voted for them—to vote for the nomination of Roosevelt!

VILLISTA BANDITS NOT SOLDIERS

A claim is made in behalf of certain Villistas who were tried and sentenced to death by a court at Deming, N. M., for participation in the Columbus massacre that they were soldiers who acted under the orders of a superior officer, and as prisoners of war are not subject to trial and punishment by a civil court. This claim as first put forward, recently, by a man of character and intelligence and a retired officer of the Regular Army, was presented with an accompanying argument marked by no little plausibility, but has been found, upon more mature consideration and the careful scrutiny of the highest legal authority, to be unsound.

The State Department at Washington very properly refused to entertain an application for interference with the sentence of the New Mexican court. It replied to the petitioner as follows:

"Your apparent assumptions as to the status of Villa and his band at the time of the raid on Columbus are erroneous, in that you seem to consider that Villa was at that time prior to this raid, had considered Villa and his followers as bandits, and there was abundant support for this view of the case in the many outrages committed by these men against American citizens in Mexico, the most flagrant of which was the murder in cold blood, and for no other reason than their nationality, of seventeen American citizens at Santa Isabel."

In the absence of a state of war between the United States and Mexico, if the Columbus killings had been perpetrated by soldiers of Carranza, acting under orders from a Carranza officer, it would have made no difference in their legal status. Even those soldiers who did not actively participate in the murders, but were present aiding and encouraging the murderers, would have been considered—as the Villa bandits were considered—under the laws of New Mexico accessories before the fact, and as such liable to trial and punishment as principals. If a band of a dozen highwaymen stop a stage and a passenger who resists is killed by one of the robbers, the other eleven mem-

bers of the band are equally guilty as the principal murderer.

Another claim made in behalf of those convicted and sentenced to be executed by the Deming court is that they were captured by American soldiers on Mexican soil, where they retreated after the Columbus tragedy and were forcibly and unlawfully brought into New Mexico by their captors.

There is nothing whatever in this plea. It was held by the Supreme Court of Illinois in the case of Ker vs. People, 119 Ill. 67, that a court trying a person for a crime committed within its jurisdiction will not investigate the manner of his capture in case he has fled to a foreign country and has been brought back into the jurisdiction of the court, although his capture has been plainly without authority of law. That the accused is in court is sufficient to require him to answer the indictment against him.

The United States Supreme Court, in 119 U.S. 436, held that a person who commits a crime in the United States, and flees to a foreign country to escape punishment there, does not thereby acquire in the latter country a right of asylum in which he will be protected by virtue of an extradition treaty between the two countries. And hence, if a fugitive criminal be abducted forcibly from a foreign country to which he has escaped, and brought back to the United States for trial, without invoking the aid of an extradition treaty under which he might have been extradited, he cannot set up a plea to the jurisdiction on the ground that he has been deprived, without due process of law, of a right of asylum secured to him by the treaty.

In State vs. Brewster, 7 Vt. 118, it was held that an offender who had escaped to Canada and had been brought back against his will and without the assent of the Canadian authorities, might be tried and punished for the offense committed in the United States.

In People vs. Rowe, 4 Park. Crim. Rep. (N. Y. Superior Ct.) 253, it was held that the forcible abduction of a fugitive from another State might constitute an offense against the dignity of the government from whose territory the prisoner was taken, and might render the persons guilty of the abduction liable to the prisoner for the violation of his right of personal liberty; but the former wrong is one for which the foreign government alone can complain, and neither it nor the trespass against the prisoner's right of personal liberty can be set up by the prisoner as a defense to a prosecution in the court to which he has been forcibly brought.

The gentleman who urged the State Department to interfere with and prevent the execution of the sentence of the Deming court said: "The blood is too hot in New Mexico to be judicially fair towards Mexicans accused of crimes and especially of atrocities."

Hot blood at Villa's outrages does credit to New Mexicans. It would gratify the country if President Wilson's blood corpuscles could be warmed up a little.

In Other Words.

"In other words, even if you put the rich man under the poor man's feet, the poor man would only just be walking on his uppers."

MEMORIAL DAY.

Once more our bugles sob their sad requiem; once more the lowered flags sigh their sad and silent story; once more the downcast eye and quivering lip speak more eloquently than iron tongues the heart-grief of the nation.

Today the crashing volleys and the fragrant blossoms of our sunny land unite in voicing a tribute to the imperishable fame, the everlasting memory of our soldier heroes, sleeping on hill and plain, in fen and dell, resting so silent by night and by day and consecrating with their hallowed forms this land of earth's hopes—Our Country; our Nation!

And so 'tis meet and fitting that we pause in our busy workaday life and today honor with reverent head and humbled voice the fast vanishing ranks of the Grand Army of the Republic. There are so few left; so pitifully few!

A few more years and the last of the boys in blue will have answered the final roll call; but the deeds they wrought and the glory that was theirs will remain till the firmament rolls together and worlds are no more.

TOWN AND COUNTRY

The flowers are blooming in the woods, the daffodils and kindred goods, the cowslip and the rose; and, as I do my office task, I wish that I could go and bask among such things as those. Oh, it would surely be sublime, upon a fragrant bank of thyme, for drowsy hours to rest; to revel in the wholesome breeze, and pluck the loadstools from the trees, and rob a hornet's nest. But now a farmer comes to town—a man whose residence is down where buds are bathed in dew; all day he sees the posties grow, all day he feels the aprons blow his flowing sideboards through. And when I'd talk, in burning words, of bumblebees and bats and birds, and other woodland things, he looks at me as though he feels that my fat head is full of wheels, and cranks and rusty springs. He interrupts my glad harangue, and says, "I do not give a dang for cowslip or for rose; I'm happy, and the sun goes down, if I can chase myself to town to see the movie shows."

MEMORY.

BY EUGENE BROWN.

There are blossoms and buds for the boys in blue, And laurel and love for the gray. Each died in a service he thought was true. Their souls are united today.

The land is enriched by the sacrifice made; Their blood was the seed of our might; In red, white and blue be Columbia arrayed— On cause and one country to-night.

The day which legislative act and general custom set aside for retrospection over those who have fallen in the nation's wars was officially designated as Decoration Day. It was still thus known until many of the careless and frivolous ones came to recognize the word "decoration" in its embellished sense and used the day to decorate themselves, the town and the whole blooming map.

There is a large element of the population to whom a holiday means but another brief relief from the ordinary duties of human living—a rift in the cloud of monotony. It is an occasion on which money may be spent and pleasure pursued. The hunt for happiness is a feverish one. There is another class who understand and take advantage of this condition and provide that which shall lure or appease the seeker after novelty and excitement. And so the spenders and the spoilers get together and the sentiment which originally inspired the day is forgotten amid the tumult and the shouting.

There is such activity on the diamond, the track, the links and in the arena that there is hardly time to drop a wreath of roses on the grave of Uncle Eli, who was hit by a rebel shell at Chancellorsville and never amounted to a whole lot afterward. Of course Eli lost his sweetheart and the career on which he had counted. They were in the full of the cards, and we can hardly be expected to cast up and bemoan the playthings of destiny. What is the life and the future of one man, anyhow?

Say! what's the score? But anyhow, here is another Memorial Day to be used as a smothered fire. The South found that winning ranks of the Old Guard wend their way to the quiet graveyard. They go with faltering step, but halcyon memories. Over the fallen ones "hugs" are sounded and then in reflective mood the survivors return to resume the duties and routine of another day.

Who felt the stress of war—whether of North or South—like feel and respect the sentiment which inspired the day. Even with those who suffered and endured most the war, sectional hatreds have been appeared. Time had worn away much of the recollection of strife, but the last barrier was swept aside when veterans of the blue and gray found themselves side by side in Cuba's cause. It was a campaign for freedom and humanity and the soldiers of the South found that they could fight bravely and eagerly for the rights and liberties of others than themselves. For the first time they fully realized the spirit of the patriots of the North and made them indomitable. Possibly they had understood that the institution of slavery could not long exist, but that they were in the wrong in that war. And had not and would not be admitted. But after the destruction of the Maine in Havana Harbor there was no further compromise, confession, conciliation or compromise. All that had passed before was obliterated as if some giant hand had reached forth and torn a page from history. The North and the South looked arms and presented a united front to a new and foreign foe.

So it is that this day is still one of the hallowed memories in which a great, a prosperous and a united citizenship may profitably share. When the nations of the Old World are tearing their throats out with war clouds hang heavily over our own borders it is well to recall that we are a race equal to any sacrifice in the cause of freedom and justice. Memorial Day helps accentuate this truth.

The conditions were enough to make the interested parties more than nervous and were exactly right to bring out the best that was in the car and the other ingredients of the record-breaking climb. A description of the run is almost impossible but here goes. At the start it was so chilly that Ventura Mac was frozen to a depth of one foot from the surface at all points and he maintained an unaccustomed and alarming silence. Almost before Woodill had traversed the mile and a half of road which took him out of sight of the tollhouse he ran into a chilling fog from which he emerged only after passing the halfway house. After four miles of fog and cold weather, the roaring car shot out into the rarified sunlight of the high-altitude not missing a shot and dodging a wandering Ford bus at the upper tollhouse, Woodill came to a halt right at the door of the hotel at three minutes after seven. WARREN MEETS SAD DEFEAT.

Taken into Camp by Rager of Santa Monica.

Ed McCormick Wins International Event by a Hair.

Classy Matches Seen in Southern Tennis Meet.

Fast tennis and classy matches featured the second day of the Southern California Tennis Club's handicap tournament as the wood-ing-out process left the expert racket-wielders to fight it out at the finish.

Ed McCormick came through to the semi-finals by defeating the Japanese crack, Tomiyama, in a whirlwind "dustup," both players driving and smashing to all corners and winning their points by sheer speed.

POOR WARREN. Eugene Warren met defeat at the hands of Rager of Santa Monica in a beautifully-played match in which both players seemed afraid to use speed but placed their reliance instead in perfectly-executed placements and sharp volleys. Warren was compelled to give a handicap of 16-8 and he could not quite overcome this. After losing the first set 6-4, Warren began one of the most uphill fights ever witnessed on the courts and brought the score 8-4-all, only to lose finally at 9-7.

DOWLEY OUT. Frank Dowley's beautifully-executed strokes and fast drives were not sufficient to overcome the strategic tactics of Walter Downey, who drew his opponent to the net with short chops and then lobbed over his head or passed him with perfect drives to the side lines, winning in straight sets, 6-4, 6-2, 6-3. Paul Hardman, who won the Southern California championship a few years ago, met a Tartar in Dr. Thompson, the South African veteran, and after playing over three hours, the match had to be called because of darkness, with one set each. The doctor is a master hand at lobbing and he varies this with a hard drive, so that Hardman was forced to the limit at all times. Hardman lost the first set, 4-6, and very nearly lost the match after having the second set 5-7 and 4-6-15, but finally pulled out at 9-7.

RAH FOR HIM. Only two matches were played in the women's singles. Miss Burman, playing with all her old-time readiness, won from Miss Withersell in straight sets, 6-2, 6-3, and should reach the finale. Miss Tennant demonstrated her ability as a handicap player in her match with Miss Harrell, who is a player of considerable ability. Giving 15 and owing 30, Miss Tennant, after losing the first set 2-6, proceeded to execute the shots which have given her the

Indianapolis Sweepstakes Threatened By Drizzling Fall of Rain.

SPEED MONSTERS WAITING FOR THE STARTER'S FLAG.

Rain Threatens to Interfere with International Event. O'Donnell is Reported to be Out of the Race with a Wrecked Machine—Workmen Have Placed Speedway at Indianapolis in Ideal Shape for the Big Event.

By Jefferson Downes.

INDIANAPOLIS, May 29.—Twenty-two starters are assured for the sixth annual international sweepstakes on the Indianapolis speedway tomorrow. It is possible that the field will number twenty-four.

Ralph Mulford, on a Peugeot and Eddie O'Donnell on a Duesenberg, qualified late this afternoon and are eligible to face Starter George Dixon tomorrow. Gaston Chevrolet is to be given a chance to qualify early Tuesday morning and if he succeeds in turning a lap at eighty miles per hour, his name will be added to the list of speed men who are to make motor race history on the brick oval tomorrow.

OUT OF LUCK.

While O'Donnell, the Duesenberg driver, who created such a sensation in California this past spring, winning the Corona Grand Prix, Fresno road race and two events on the Ascot speedway, qualified on the Indianapolis course today, he may not start. It was reported among a group of racing drivers and newspaper men at the Claypool Hotel tonight that O'Donnell would not be a contender in the sixth annual Indianapolis event. Rumor had it that O'Donnell met with an accident after his qualifying lap and his car was out of the race. O'Donnell could not be located at the Duesenberg camp or at his hotel, but it is believed that he will not start.

NOT ENOUGH SPEED.

Robert Dill's car failed to show the required eighty miles per hour this afternoon and was declared in the discard.

In order to qualify for the international sweepstakes, a car must show at least eighty miles per hour for one lap. The rules provide for three official trials for each driver and the position at the start is decided by the speed shown in the official speed trial.

Johnny Aitken on a Peugeot has been high man in the speed trials from the start. On his first official trial, Aitken turned a lap at 85.8 miles per hour and this mark remained unapproached by the other drivers, who both Eddie Rickenbacker on a Maxwell and Gil Anderson on a Premier, did better than 84 miles per hour.

Aitken then went for his Peugeot and tore off a lap at the rate of 84.75 miles per hour, which sent him to the top of the speed roster. This remarkable speed was unbeaten in the final trial unless Gaston Chevrolet establishes a higher average in his trials tomorrow morning. Aitken will start as No. 1 Tuesday afternoon.

ALL READY.

A large force of workmen went to work on the course this afternoon after the speed trials, scrubbing the bricks and putting the oval in perfect condition for the 500-mile speed battle. The officials of the Indianapolis Speedway Association have taken every measure to put the course in perfect condition for the great race.

Every car entered is figured as having an even break for first place, and the general belief among the motor-wise inhabitants of Indianapolis is that the record of 82.54 miles per hour made by Ralph De Palma with his Mercedes last year will be bettered. The only thing that stands in the way of a record is believed to be the weather.

De Palma made his 82.54 miles per hour under perfect weather conditions. It was cool and there was little or no wind. If the same weather conditions prevail tomorrow, a new record is predicted.

SOME REAL SPEED.

The cars entered are faster this year than ever before. It is claimed to be the fastest field that ever faced a starter anywhere. Another factor in favor of a new record is the distance of the race. The 1915

BRILLIANT SCORES.

E. G. Richardson and Dr. Mage won the best ball handicap four-man match at the Sierra Madre tournament at the San Gabriel Country Club yesterday, with the brilliant score of 4 up on par. They defeated 5 down but had a handicap of eleven.

There were two other competitions, match play and medal play handicaps. Elmer Ralph won the match play event with a score of 1 down. P. B. Champion won the medal play with 30-30-70.

In the ladies' event, Mrs. Green was victorious with 54-4-55. There were disappointingly few entries—one less competitor for the handicap prize.

AT GRIFFITH PARK.

Match play having reached the third round for the Griffith Park championship, it looks very much as if Elmer Ralph is to call the laurels. In his match with R. B. Carter he only won at the nineteenth hole, but both players had a 75. Carter was 1 up, driving from the eighteenth but he pulled his shot

speed battle on the Indianapolis Speedway was over a 500-mile course. The race tomorrow has been cut to 300 miles, which, it is believed, will add mileage to the average.

Heavy showers fell today, but it is claimed that the rains will have no damaging effect on the course. Despite the heavy rains of today, the race will be run tomorrow unless it is showering at the time of the start, 1:30 o'clock. Both drivers and race fans are hoping for the weather to clear tomorrow and be just cool.

A FAVORITE.

Dario Resta is the favorite among the members of the sporting fraternity. Odds of 2 to 1 were being offered on him tonight on the betting boards which were prominently displayed by the bookmakers in the leading hotels of the city.

Old-timers and wise ones declared tonight that Resta may have the race. To bet on any one driver is believed to be taking a chance only, as the dope is expected to be upset tomorrow.

Joe Christiana, Eddie Rickenbacker and Johnny Aitken have many backers among the sporting men, while Gil Anderson, Howard Wilcox and Tom Rooney on the new Premiers are staked out as dark horses on account of the excellent showing of this team in the official elimination trials.

The speed which will be made tomorrow is almost as much talked of tonight as the probable winner of tomorrow's great speed battle.

CARRY OFF TEX.

The showers today did not dampen the spirits of the great throngs of speed enthusiasts now in the speedway city. The downtown hotel lobbies are crowded with motor race fans. The cafes are overflowing with race followers and the one subject of conversation is the sixth annual international sweepstakes race, the probable winner and his average time for the 300 miles.

There is one other important point brought out tonight in the course of every conversation devoted to speed matters. This is the matter of the danger.

One great danger being asked by thousands is "Will there be an accident and who will be the driver to get it?"

The accident on the Corona boulevard which cost the racing game the lives of Rich Burman and his mechanic, Eric Schrader, and the killing of Carl Linberg and his mechanic at Sheepshead Bay, have made a great impression on followers of the racing sport, although the sport claim that there are too fast for the best of drivers today and that there is no chance to beat the game of speed once luck breaks the wrong way.

The entries in the order in which they start, follow:

SEMI-FINALIST.

E. P. Davidson meets E. A. Reesor, and he is a young man who invariably plays between 15 and 40, and is picked as a semi-finalist to meet either Ralph or Harris, when it will be a very keen fight. For this Davidson is a veritable Scotty Armstrong, for never knowing when he is beaten until the match is over. However, Reesor has some 74's to his credit, and although he shufles with a club he has a disconcerting knack of getting his ball very close to the hole.

The lower half of the draw is not so strong. Either Tom Harrell, Thorvald Stenmark or L. E. Thayer are picked for the final. But Reesor is young, gritty, a good fighter, but is not yet skilled in the game. He ranks among our longest drivers, however, gets very little practice. He ranks among our longest drivers, like Morris Phillips, but his short game is very weak. Dr. Thayer is one of the stock market players. But it is not felt that any of these can beat Ralph if he is in anything like normal form. At least he goes down before Harris or Davidson, the championship would seem to be in his pocket.

GET TROPHY CASE.

Athletes of the Polytechnic High School are rejoicing over the fact that at last that institution is to have a trophy case for its numerous sports and banners. Through the efforts of Roy Hasset the architectural classes have been prevailed upon to build the much-needed article.

ASCOT SPEEDWAY GIVES NOVEL PROGRAMME TODAY

Fun and thrills are to mingle on the Ascot Speedway this afternoon.

The most novel automobile gymnastics ever staged in the West is scheduled to take place behind the Ascot fence, beginning at 2 o'clock this afternoon. Veterans of the speed game, daring amateur drivers, fun-making comedians and queens of moviedom, all are to appear at Ascot in the great actors' fund benefit gymnastics.

SANCTIONED.

Both the American Automobile Association and the Federation of American Motorcyclists have granted sanction for competition events, gratis, on account of the nature of the meet, and this is the first time in the West that such a novel programme has been arranged. The automobile fashion show, in which motion-picture queens are to compete and the mile exhibition by Harry Harts on his Hook Special Junior car, are special events which are not sanctioned by the A.A.A., but are being allowed on a licensed speedway on account of the benefit feature of the meet.

The A.A.A. does not allow women to compete in any meet nor to officiate in any capacity. Women are not even allowed to enter cars in sanctioned meets, but by making the fashion show a special feature today, not included in the regular programme, Chairman Richard Kennard gave George R. Bantel, manager of the Ascot Speedway, permission to allow the stars of moviedom to parade on the course.

FIRST TIME.

This is the first time in the history of auto racing that a woman has been allowed on the track in any capacity and the special permission was granted by the chairman of the contest board as a special compliment to the motion-picture people of Southern California. As to the automobile fashion show, while the automobile fashion show promises to be the one crowning feature of the gymnastics, it will be a race for antique cars which promises to be a knockout in the comedy line, and there will be enough speed to satisfy the most fastidious of the speed connoisseurs.

There is to be a five-mile motorcycle race for the championship of the motion-picture industry. There are six entries in this event and all entrants must make fifty miles per hour.

NEW RULE PREVENTS LOANING OF MEN.

PHILADELPHIA, May 29.—A rule preventing players from rejoining a club from which they have been released under thirty days has elapsed, was adopted by the United States Football Association, the national governing body of soccer, at its annual meeting here today. The new rule is intended to break up the practice of clubs loaning their players to other organizations which wish to pad their rolls for important contests.

feet, with no adjustment of the carburetor en route, speaks volumes for the power of Ventura gasoline.

The fact that the car got traction and held the road at all times despite the sawing of the steering wheel, speaks well for the Firestone tire equipment.

In short, had the car not had remarkable power, had Woodill not been possessed of perfect knowledge of the road and great skill, had the gasoline faltered for any reason, had the tires failed to hold, the trip would have been as dismal a failure as it was a brilliant success.

The King Right trip up Mt. Wilson is a demonstration rather than a record, but is liable to stand unchallenged.

The car was an absolutely stock model, including fenders and windshield. The gear ratio was tested

and found to be 4.5 to 1, identical with the gear ratio of the King Right which carried seven newspaper men to the top in second gear a short distance behind the Woodill car.

The King Right which made the climb is the same car which recently completed the high-gear round trip run to San Francisco, and Woodill asserts that he has not looked at the clutch since leaving the bay city, despite the fact that the wear on that member is necessarily severe in high gear operation.

Some day you'll hit on a Sensible cigarette

And as soon as you smoke it, you'll at once know that it's sensible: (1) It will please your taste. That goes without saying, otherwise it would not be sensible for you.

(2) It will be comfortable to your throat and tongue—not hot or bity as some cigarettes are.

(3) And it will not leave you feeling "over-smoked" even after a long-smoking day.

We would like to have you match Fatima against each one of those three points for a sensible cigarette. Then try any other cigarette made on those same points.

So many other men have found Fatimas

the most sensible cigarette for them that Fatimas now outsell every other cigarette costing over 5c.

Doesn't it seem reasonable that you will like Fatimas best too?

Pitching Staff Seems to be Going Right.

Good Turners Lined up for Today.

Frank Chance and his Angels returned from their road trip feeling happy but when they left the hotel they were met by a crowd of fans. The pitcher's lead is confident that his team has at last hit its stride. He places the whole credit on the pitching staff.

THE PITCHERS. "They're hot," he declared enthusiastically. "Weak pitching has been the trouble all along. They want these last two weeks. They finally came through. Zabel and Hagg are looking the way they ought to look, and Haggman is looking near the best in the league." Chance is so anxious to show the fans the improved pitching staff that he will start them against Portland today. He would not say who was the work in the morning nor who in the afternoon.

BUTLER STICKS. Butler is at stick at shortstop no matter how many men come from the East. Chance is satisfied. He has been having a hard time on the outfield. Butler is a good fielder and a good pitcher. He will probably work in the morning.

In the afternoon Rip Haggman will step on to the mound again as a pitcher after having had a day and a night in the big league. Haggman will be given quite a rest-off, for he always was popular, although he did have a nasty habit of winning games for Portland.

McCreedy may well get excited and send his best. He is up against a team that has been going away from home in much the same way that Vernon has been going at home. If Chance is right he will have the same complaint. "Too much stuff in the pitcher's box."

Right at It. **RIVERS WORKING FOR HOPPE BOUT.** **SCRAPPERS WILL MEET SURE ON JUNE TENTH.**

Hoppe is Mapping Out Elaborate Schedule of Practice to Get in Perfect Shape for the Future Fight—Rivers Appears in Great Form and Confident of Winning.

"Will Hoppe and Joe Rivers be matched and they will fight at Venice June 9." That is what Promoter Frank Grout had to say yesterday in regard to the Willie Hoppe mystery.

Hoppe may be out at Doyle's. He is going to fight Tommy McFarland Thursday night. At least so he heard. But that has no to do with his fighting or not fighting Joe Rivers at Venice June 9. It is Thursday June 9.

Thursday not being June 9, the question was settled.

TRAINING. Hoppe is going to have plenty of training for his go with Joe Rivers. He is going hammer and tongs for his bout with Tommy McFarland. If all the rumors and reports are true, bad blood brews between the two.

After his match with McFarland, Hoppe will be forced to rest a day or two. At least he was after the previous match.

Joe Rivers is so excited over his coming match that he refused to come to the city yesterday to do some necessary business. Instead, he went that Jack of all trades, Harry Brown, as his agent.

Rivers went to a barbershop yesterday and put on weight. This made him nervous. Most of the crowd for an hour yesterday morning, standing off his weight.

SHADOW WORK. He worked out at the gymnasium the fully extra hour. Most of his boxing had to be shadow work, because those who had promised to train with him failed to appear.

Willie Johnny Oliver was the only one on the job. The Mexican tore him like a bear cub. The two were sparring in a boxing ring, and there were no ropes to stop Oliver in his backward fall. Oliver, spread most of the crowd waiting for Oliver to pick him up and get on the mat. Finally Oliver, with one hand and pounding away with the other.

With the other, the crowd was so tickled with the contest that he is getting in that he is going to give a show Sunday. He is offered to meet all comers and will box, in all fifteen rounds. The crowd around Venice has acquired the habit of dropping out to Harry Brown's gymnasium to see the Mexican workout. Each day sees a big crowd of spectators.

Willie Mrs. Rivers sits off in a corner by herself watching Joe. She seldom takes her eyes off him.

MONSTER BASS HOOKED AT AVALON. **AVAILON, May 29.**—While fishing near George in a launch, Harry Clark of Los Angeles brought in the largest black sea bass ever landed from the coast two years. The fish weighed 215 pounds. The fish was hooked at 11:30 p.m. and was landed at 1:30 a.m. The fish was taken from the beach and was nearly three miles long. It was taken from the beach and was nearly three miles long. It was taken from the beach and was nearly three miles long.

Getting Ahead!

Two words briefly define the issue of our NATIONAL SUNDAY MAGAZINE, Sunday, June 4, containing notable contributions by Henry Redfield of the Cabinet; Ed. Parkham, Parker Fillmore, R. M. Hoff, Ernest Fuhr and others.

Leading Posts of Empire

Article by William C. Redfield
Secretary of Commerce

Henry Redfield avoids jingoism in common sense in urging American manufacturers and capital to get peace by arming now to command world trade after the war. Every man-owned business in foreign land is an outlying fortress of American power, he says. Every American bank in that foreign land is a ready-made base for those fortresses. U. S. where we rank now, Secretary declares. Shall we become U. S. or have even a lower rating after the war? Read his forecast and conclusions.

AGAINST CARDS AND THEATERS.

Angelist Denounces Popular Evening Amusements.

Large Numbers of Converts at Revival Meetings.

Books Tonight to Arkansans and Texans.

SERMON SNAPSHOTS.

Yow sow liquor and you sow seeds and you reap gamblers. The greatest gambler in the country says that card playing at home is the kindergarten where gamblers are made. Mothers, do you hear this? What's the difference whether you play for silver molded in the shape of a dollar or for silver molded in the shape of a vase or a cup? You've kicked the Bible out of the schools and stuck the gambler's dance in, and then, when your children go wrong, you wonder how it came to pass. In the name of God where did you grow up? If a man should be privileged to grab the earth and all the fullness thereof, what would it avail him after life's little day is done and he stands bankrupt at the bar of God? It's one thing to unite your home in Christ, and it's another thing to keep it united. You've got to stay right on the job, guarding, warning, praying. It's a fight that will tax the best that's in you.

Back of the State stands the church and back of the church stands the home. God's first and choicest gift to the human family. When home questions are rightly settled the church and the nation will take care of themselves. Soup enough to float a battleship has been drunk around banquet tables in the discussion of how to save souls. The revivalists are going to put this nation on its feet with a banquet around a banquet table.

"If not another soul comes into the kingdom during these meetings, I shall always be glad to come to Los Angeles," exclaimed Evangelist Brown as he stood, with radiant face, before a group of young people. "I am not here to win souls," he said. "I am here to win a gold mine." He had more of a gold mine in his features than did the earnest revivalists. "I am not here to win souls," he said. "I am here to win a gold mine." He had more of a gold mine in his features than did the earnest revivalists. "I am not here to win souls," he said. "I am here to win a gold mine." He had more of a gold mine in his features than did the earnest revivalists.

A somewhat singular fact was that the sermon which preceded this remarkable result was a particularly searching and searching condemnation of amusements supposed to be dear to the hearts of young people. In the uncertain terms the evangelist denounced dancing and card-playing and theater-going. He had hardly anticipated such an outpouring of souls. In fact, he said that before his experience had made a demonstration followed this part of sermon, all of which indicated that these young folks were in dead earnest.

MARCH TO ALTAR.
The moment the invitation was extended they began coming forward—first alone and by twos and threes, and then, as the persuasive voice of evangelist Curry rose clear and sweet in the gospel song, "I'm Coming Home, I'm Coming Home," they hurriedly flocked to the altar—boys and girls, young men and women taking their definite step for Christ. Yesterday afternoon Rev. I. C. Waterhouse, who is one of the most popular in the evangelistic group, was in the pulpit at some 10 o'clock, and in the afternoon he was conducting a children's meeting in some church, and wherever his voice boomed out it instantly attracted and holds the attention. Yesterday he preached a sermon on "The Soldier's Prayer," and it was a convincing and a couple of old soldiers in uniform came down the aisle and knelt themselves in the crowd.

BACK ON JOB.
Rev. Mayor Waterhouse of Pasadena, who has acted in the capacity of general superintendent for Brown and Curry, is back on the job, after having been laid aside for some time on account of illness. His absence this time had been admirably filled by J. J. Morrell of Hollywood. He is the man of the way, who advanced the call for building the tabernacle, and he is now unfurling in his interest and earnest in his efforts to make the meetings a success.

Last night there was a delegation from Bishop's Sunday School in attendance; another from one of the department stores, a third from a church, and a swarm of Missions—for it was designated "Missions night."

This afternoon at 5 o'clock evangelist Brown begins his series of sermon lectures on "Thinking Rightly" and this evening he will speak on "The Parable of the Lost Sheep."

A big delegation of Arkansans and Texans occupy reserved seats.

False Checks.

Justice who had lost his wedding fee. Landers grinned at the magistrate and said that he would not make any statement at this time. **HE ADMITS IT.**
"I was a fool," Landers declared in the jail. "I hope my wife will stick by me. I can make good if I get out of this. It was just a foolish pride that led me to try to give a financial impression far above my ability. I spent \$450 in addition to the bad checks. I have always been a black sheep, and unstable in my financial transactions. I wanted to pretend to be wealthy and had to choose, once I had started, between doing the check trick or telling my wife. You see, I spent all my money for a dinner party."

The elder Mr. Landers telephoned his son that he would make good the girl's hotel debts and see that she was taken care of. He refused to commit himself as to his action toward the boy.

WANTS FRAUD ORDER.

Postoffice Authorities Take Steps to Prevent James Sinclair, Convicted Extortionist, from Again Engaging in Butterfly Game.

An application for a fraud order against James Sinclair, the butterfly man, who was found guilty of using a scheme to defraud by a jury in United States District Judge Van Fleet's court last week, has been made by Postoffice Inspector Webster, it developed yesterday. The hearing has been set for June 2 in Washington, when the extortionist will be required to show cause why such an order should not be issued against him.

CALLS ATTORNEY'S BILL TOO BROAD.

OPINION OF COUNTY COUNSEL AGAINST ITS LEGALITY.

Supervisors Defend Action After Hearing Ten-thousand-dollar Demand for Services in Connection with San Fernando Water Negotiations is Not Sound.

Preliminary negotiations with the city of Los Angeles for the sale of water to the San Fernando Irrigation District No. 3 and other water referred to by Attorney T. E. Gibson in his report to the Board of Supervisors two weeks ago, when he put in his demand for \$10,000 for services rendered, are not included legally under the statute relating to the formation of the district, according to an opinion handed the board yesterday by County Counsel Hill.

In this opinion, Counsel Hill declared that, no matter how beneficial the result, the action might have been, it did not actually constitute the legal steps relating to the formation of the district, as viewed from the angle of the strict law. According to the petitions circulating for the formation of the district, the election was held to determine the advisability of constructing and laying certain conduits and pipes for carrying water, and not for the purpose of furnishing water to the inhabitants.

Therefore, the major portion of the Gibson demand, as explained by himself and his associates, is held not to constitute a legal charge against the proceeds of the sale of the bonds of the district. Attorney Gibson can show his work is directly covered by the statutes in question the Board of Supervisors may fix a reasonable amount as a fee, independent of the recommendation of the Irrigation District Organization Committee.

Attorney Gibson was represented at yesterday's hearing by his attorney, who asked for time in which to file an amended bill for services. This was granted and the hearing deferred two weeks.

SCHOOL OF RELIGION.

Summer Sessions Under Auspices of Pacific Seminary Begin with Morning and Evening Class Work—Course Will Occupy Two Weeks.

Sessions of the Summer School of Religion, which is being conducted at the First Congregational Church, Ninth and Hope streets, under the auspices of the Pacific Theological Seminary of Berkeley, opened yesterday morning with Dr. C. S. Nash, president of the northern institution, officiating.

The school will be open until June 4. Classes are held in the morning from 9 until 11:30 o'clock, from 10 until 12:15, and from 1:15 until noon. A registration fee of \$1 is charged for entrance to the morning classes. Evening classes open at 7:45 p.m. and are free to the public. The classes are in charge of these six teachers and graduates of the Pacific Theological Seminary: Prof. Chester G. McCown, John W. Buckham, Rev. Albert W. Palmer, Rev. Miles B. Fisher, Prof. William F. Bate and Prof. Raymond C. Brooks. The morning classes are devoted to Jesus and Paul, in the light of historical study; the Christian doctrine and experience, the social applications of Christianity, and the church and religious education. The topics of the evening classes are the Old Testament prophets and the modern interpretation of Christianity.

NET FOR AUTO THIEVES WIDE.

Three Wanted Here Captured at Distant Places.

Odd Gloves Cause Arrest of Pair in Texas Town.

Third is Found at Martinez; Two Cars Recovered.

Three alleged Los Angeles auto thieves were captured in distant cities yesterday, according to reports received by Sheriff Cline.

The first capture was reported at Panama, Tex., where two men, arrested as sailors and refusing to give their names, were found in a machine stolen from W. A. Reeder of this city. A pair of gloves which he had left in a side pocket and which were of unusual make were the means of identification of the car, when the drivers stopped for gasoline in the Texas hamlet.

Carl Youngman was captured in Contra Costa county after having eluded pursuers and officers watching for him all the way between Los Angeles and San Francisco. He was arrested at Martinez, a local dealer early last week and gave a bad check for it, according to allegations against him. Advice to the Sheriff's office were that he was stopped at Martinez after endeavoring to pass a worthless check there. This led to his identification.

Deputy sheriffs have gone to bring back the prisoners and cars.

SEABOARD CASE OVER.

Inability of Witnesses to Attend and Illness of Attorney Among Reasons Given for Advancing Mail Fraud Case to July Term.

The case of the government against Nicholas F. Wilson, former Wilson, J. R. Higgins, Allen G. Nichols, William Moore and Frank D. McClure, charged with misuse of the mails in connection with the Seaboard Company, which was originally set for trial June 15, was yesterday transferred to the July calendar to be set. This case has been pending more than two years.

The affidavit signed by the attorneys for the defendants declares that it is the charge of the government that certain alleged oil holdings in Mexico were alleged to be worth \$104,000, when as a matter of fact they were not worth to exceed \$250, and it is necessary to show the untruthfulness of this claim.

Frank G. Rolan, Felix E. Sanders, H. B. Guthrie, George Wilcox and R. D. Fowler are important witnesses on this subject, but it is asserted that on account of the disturbed conditions in Mexico it is impossible to secure their presence at the present term of court.

The fact that L. E. Valentine, one of the attorneys, is just recovering from a severe surgical operation is also given as a reason for the postponement of the case. It was stated in court by Asst. Dist. Atty. O'Connor that by reason of the showing made in the affidavit there was no inclination to insist upon an immediate trial.

A WOMAN IN THE CASE.

Spotted Alibi for Alleged Healer. Government Charges in Case Against August Shrader, Who Faces Court for a Brief Period.

August Shrader, the alleged divine healer of the "blessed handkerchiefs" and prayer-card routes, who pleaded not guilty Saturday to a charge of using the mails in a scheme to defraud, was given until Monday by United States District Judge Hildner yesterday to have a demurrer presented and argued to the indictment.

An effort was also made to have the bond of Shrader reduced from \$1000, but action on this application was likewise postponed until Monday.

Shrader attempted to address the court, saying that he had never charged a man or woman a cent in any of his professional work, but the court would not listen to him. It is claimed by the government that Shrader has a young woman employed whose business was to circulate among the sick and afflicted of her sex, and especially those who were able to pay a fee. This woman would "report" the victim, it is alleged, and immediately there would follow an advertisement offering to cure, no matter what the illness might be, for a price. It is also declared that this female advance agent made quite a sum of money in the way of commissions for locating victims.

MINE BATTLE LOST.

De Pauw Faction in War for Control of Famous Yellow Aster Denied Court Action to Prevent Distribution of Big Block of Stock.

Judge York yesterday denied the application of the De Pauw faction to continue in force the temporary injunction restraining the distribution of the stock of the Yellow Aster Mining and Milling Company, held by the Hand Development Company, recently dissolved as a corporation. The De Pauw faction is stockholder of the company, and are fighting in the courts to obtain control of the Yellow Aster. The stock is especially directed against Mrs. Rose Burdham, whose husband, C. A. Burdham, was an associate of John Singleton, founder of the famous mine, and Ward Chapman, executor of Mr. Singleton's estate. Mrs. Stalla de Pauw is the widow of John Singleton.

BEST TREATMENT FOR CATARRH

S. S. S. Removes the Cause

Specialists in Catarrh troubles have agreed that it is an infection of the blood. The laboratories of the S. S. S. Co. at Atlanta, have proven it. Once you get your blood free from impurities—cleansed of catarrhal poisons, which it is now a prey to because of its unhealthy state—you will be relieved of Catarrh—the dripping in the throat, hawking and spitting, raw sores in the nostrils, and the disagreeable bad breath. It was caused, in the first place, because your impoverished blood was easily infected. Possibly a slight cold or contact with someone who had a cold. But the point is—don't suffer with Catarrh—it is not necessary. The remedy, S. S. S., discovered over 50 years ago, tested, true and tried, is always obtainable at any drug store. It has proven its value in thousands of cases. It will do so in your case. Get S. S. S. at once and begin treatment. If yours is a long-standing case, be sure to write the Swift Specific Co., Atlanta, Ga., for free expert medical advice. They will tell you how this purely vegetable blood tonic cleanses the impurities from the blood by literally washing it clean. They will prove to you that thousands of sufferers from Catarrh, after consistent treatment with S. S. S., have been freed from the trouble and all its disagreeable features and restored to health and vigor. Don't delay the treatment. Take S. S. S. at once.

Why We Are Opposing A Government Armor Plant

To the People:

Some people say that the very fact that the Bethlehem Steel Company is so aggressively fighting the proposal to build a Government armor plant is conclusive proof that the Company is seeking to assure for itself the "vast profits" derived from private manufacture.

The fact is that armor making is the least profitable feature of steel manufacture.

The reason we oppose a Government plant is very simple. It is this: Even though there is but little profit in the making of armor, we have invested over \$7,000,000 in our armor plant;

That plant is useless for any other purpose; if a Government plant is built the usefulness of our plant is destroyed.

It would be good business for us to make armor for the Government at any price over and above the actual shop cost, RATHER THAN SACRIFICE OUR ENTIRE INVESTMENT.

We do not seek to save big profits; our purpose is very frankly to save our armor plant—its built solely for the use of the Government—from going to the scrap heap.

To do that, we are prepared to agree for any period to any terms of manufacture which the Federal Trade Commission shall say absolutely protects the Government of the United States.

Mrs. William H. La Point, who was brought to the County Jail yesterday from Santa Monica, with her husband and daughter, after the trio had been charged with having counterfeited coins in their possession.

The complaint was made yesterday by Special Agent Hasen against Mr. and Mrs. La Point and the latter's daughter by a former husband, Helen Elsie Todd, and a warrant for their arrest and removal.

TO PAY FOR HARBOR LOT.

Mrs. La Point said yesterday she started her counterfeiting operations because of her desire to obtain sufficient money to make a substantial payment on some property in the harbor district that is valued at about \$3000. Mr. Hazez says he believes the prisoners secured about \$5000 as a result of their activities.

With the arrest of the trio, an effort was made by La Point and his wife to shield her daughter, but

The girl, who up to a few weeks ago was employed as a waitress in a West Third-street restaurant, says she not only assisted in making the coins but also in passing them. Not only that, but she declares she was not compelled by her stepfather to engage in the work, but she was an equal partner in the enterprise and received one-third of the proceeds.

found a quantity of made-up halves and dollars, but a complete counterfeiting outfit. The facility with which they got rid of the coin was indicated by the fact that the larder was stocked with groceries, evidently bought with the "phony" stuff. It was the rule to make small purchases and secure the change in good money.

The girl is said to have a bank account of her own in this city, and is very proud that she saved so much of her money.
